Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 June 2005.
- 2a) ☐ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 18-40 is/are pending in the application.

- 6) ☐ Other: _____.

DETAILED ACTION

1. The amendment filed 6/17/05 has been entered. Per applicant request, claims 1-17 have been cancelled.

2. Newly submitted claims 1-27, 35-40 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

- I. Claims 18, 39 are drawn to a method which accepts captured pictures into presentation data, classified in class 715, subclass 721.
- II. Claims 19-21, 40 are drawn to a method and article of manufacture adjusting color of data, classified in class 345, subclass 594.
- III. Claims 22-27 are drawn to system for creating programmed object behavior, classified in class 715, subclass 966.
- IV. Claims 35-38 are drawn to a system for indicating object specific playback, classified in class 715, subclass 805.

Note that the claims 28-34, which may be labeled as Group V, are drawn to a system for hierarchical navigation through container objects, as are the original claims, and may be classified in class 715, subclass 854.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as accepting pictures into presentation data. Invention II has the separate utility of adjusting the color of media data. Invention III has the separate utility of creating programmed object behavior. Invention IV has the separate utility of indicating object specific playback. Invention V has the separate utility of hierarchical navigation through container objects. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I, II, III, IV is not required for Group V, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-27, 35-40 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

9. Claims 28-34 are allowable over the prior art of record. The specific combination of preemption of playback with the container and nested sub-display features, as brought out in these claims are not set forth in the prior art of record.

10. This application is in condition for allowance except for the following formal matters:

The restricted claims 1-27, 35-40 need to be cancelled by the applicant.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.
